SUBJECT: DEMARCHE DELIVERED ON POLIO ERADICATION IN NIGERIA

REF: STATE 65054

This message is Sensitive But Unclassified. Please handle accordingly.

¶1. (SBU) Embassy officers delivered points in ref to MOFA Global Issues Cooperation Division Senior Coordinator Takehiro Kano June 23. Kano said the GOJ supports sending a clear message to Nigeria on the need to improve its polio eradication efforts, but noted other countries must be careful about how the message is conveyed. Countries will need to avoid giving an impression of "ganging up on" or "singling out" Nigeria for shortcomings on polio eradication, he said, also noting a consistent message is important. Kano suggested the G-8 Health Experts Group draft report's reference to the 61st World Health Assembly resolution on polio may be a suitable way to convey G-8 views. He also said it may be possible to raise polio in meetings with the Nigerian President on the margins of the G-8 Toyako Summit. (NOTE: Japan has invited Nigerian President Umaru Yar'Adua and leaders of several other outreach countries to the G-8 Summit. END NOTE).

¶2. (SBU) Responding to recent press reports the GOJ will provide 836 million yen to Nigeria through UNICEF for infectious disease prevention, Kano confirmed 700 million yen (approximately USD 6.6 million) for procurement and distribution of polio vaccine for children.
